

# WE ALL PLAY A PART IN THE JOURNEY FROM TOMATO TO TABLE.

As you review the roles that key functions play in the ketchup lifecycle, reflect on your own role and function.

How do YOU make life delicious for consumers, directly or indirectly?

## Agriculture

Develops the tomato varieties and oversees our proprietary blend of Heinz tomato seeds.

## Communications

Shapes the strategic communications and messaging to internal and external stakeholders.

## Distribution

Delivers our ketchup products to our customers order per our agreements "on time and in full" (OTIF).

## Environmental Social Governance

Sets our company goals related to sustainability and ethical governance, supports ketchup product enhancements in alignment with goals, and ensures we stay on track to meet them.

## Finance

Ensures the ketchup we sell is profitable and generates stakeholder value that balances community, consumer, and shareholder interests for long-term sustainability.

## Government Affairs

Communicates the interests of our stakeholders in all aspects of the product lifecycle of ketchup to governmental agencies, legislators, and interest groups.

## Growth

Interprets consumer insights and trends related to our ketchup products to create strategies for innovating and renovating products that promote the long-term growth of Kraft Heinz.

## Legal

Advises on legal strategies and protection of stakeholder interests in our ketchup products, ranging from contracts, negotiations, compliance, patent and intellectual property protection, as well as mergers and acquisitions.

## Marketing

Innovates creative strategies to delight customers and consumers with our beloved Heinz Ketchup.

## Operations

Makes our ketchup products efficiently and safely and gets them where they need to go.

## People & Performance

Focuses on every aspect of growing a diverse, equitable, and inclusive work environment throughout the employee lifecycle—including hiring, retaining, and rewarding the best talent who own our brands like Heinz Ketchup.

## Procurement

Ensures we have the ingredients to make our ketchup and the materials we need to package it.

## Research & Development

Innovates and renovates new ketchup products that meet ever-changing consumer tastes while also partnering with chefs on our Culinary team to identify food trends and test new products.

## Sales

Sells our delicious ketchup products to a broad range of customers worldwide including brick and mortar grocery chains, online retailers, and restaurants.

### Reflect:

What role does your function play in getting ketchup or other products to the table? Note questions to discuss with your manager during your next 1:1 Meeting.
